What investment services and advice can you provide me?

The Advisor offers wealth management services, which consists of **investment management** and **financial planning**:

(1) The Advisor provides to each client **investment management services**. Management of the client’s portfolio will follow investment guidelines prepared by the Advisor which reflect the client’s objectives, time horizon, tolerance for risk, as well as any reasonable account constraints or restrictions. We generally require a minimum asset level of \$250,000 for wealth management services. We typically manage the client’s investment portfolio on a discretionary basis, which means that we have full authority to make investments in your account subject to the investment guidelines, including any reasonable restrictions mandated by the client. In exceptional cases, we may manage accounts on a non-discretionary basis. In either case, as part of our standard service we will continuously monitor your accounts. We are not limited to any specific product or services offered by any broker-dealer or insurance company.

(2) As part of each client relationship, the Advisor provides **financial planning services** relating to all or a part of the client’s financial situation. Advice is offered on subjects such as retirement goals and strategies, executive compensation, education funding, budgeting, savings, risk management, insurance needs (i.e., life and disability coverage) and tax and estate planning, or other specific needs as indicated by the client and as may be recommended by the Advisor. We do not provide tax or legal advice.

(3) The Advisor may also provide general financial consulting services to small businesses. Business consulting services may include advice regarding the design and selection of appropriate retirement plans or accounts for business owners and their employees.

How will you choose investments to recommend to me?
What is your relative experience, including your licenses, education, and other qualifications?*

What fees will I pay?

The Advisor’s fees are as follows:

CLIENT RELATIONSHIP SUMMARY

MARCH 2022

We reserve the right, in our sole discretion, on a case-by-case basis, to negotiate fees. In addition to our fee, your managed portfolio will also pay fees charged by custodians, brokers, bankers and other third parties. Some investments such as mutual funds and ETFs are subject to fund-level expenses and may have sales loads and transaction fees as described in the fund's prospectus.

Please note that you will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information about our fees, see Item 5 of Form ADV Part2a Brochure available at: <https://www.twealthmanagement.com/>

Ask your investment professional:

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means. Because we charge a fee that is based on the size of your account, we have an interest in encouraging you to use our services. If we recommend additional services or recommend that you enter into a retainer arrangement with the Advisor rather than work on a project basis, we are making recommendations from which we will derive additional fees.

Ask your investment professional:

How might your conflicts of interest affect me, and how will you address them?

For additional information about conflicts of interest, see Form ADV Part2a Brochure available at: <https://www.twealthmanagement.com/>

How do your financial professionals make money?

Timmons Wealth Management's investment professional makes money as the sole owner of the business. The sole source of revenue is from the fees that we charge to our clients. We have an incentive to encourage you to use our services, increase the size of your account, and to rollover retirement assets into an account with the Advisor.

Do you or your financial professionals have legal or disciplinary history?
